

e-Book Manager

Provides tools for accessing and managing your ebook holdings:

- A-to-Z ebook locator
- A single point of access to ebooks, or to ebooks and journals
- A source, among others, of federated search by **Searcher Analyzer**
- Resolvable.

Users can search and access ebooks as a stand-alone content.

They can easily access ebooks and journals combined. In a single platform they can search across the library's resources including free and paid-for external databases such as journals and ebooks, local repositories, and other sources.

Users can also access ebook content through TOURresolver, TDNet's OpenURL link resolver.

A comprehensive eBook Knowledgebase features automatic aggregator and publisher collection updating.

Searching

Book Manager supports searching for:

- ebooks
- Combined ebooks & journals
- Search by subjects as classified by the library

The following fields can be searched:

- | | |
|---------------|-------------|
| • ebook title | • Year |
| • ISBN | • Author |
| • Volume | • Editor |
| • Issue | • Publisher |
| • Edition | • Vendor |

A-Z Interface

Book Manager features a customizable interface that offers optional A-Z listings of ebooks. The interface can also be integrated with TDNet's **Journal Manager** interface, giving a comprehensive view of ebook and journal holdings to users.

OpenURL Resolving

Book Manager is integrated with **TOURresolver**, TDNet's OpenURL link resolver, allowing users

to resolve ebook citations and link to ebook content at:

- e-book level
- Chapter level whenever available
- Page level whenever available

In addition to a database of links preconfigured by TDNet, customers can also setup custom linking rules:

- Per Publisher
- Per Aggregator
- Library defined:
 - Per particular arrangements
 - Per proxy requirements

The Knowledgebase

A comprehensive knowledgebase, constantly updated for the latest content, coverage, and link information, is a fundamental part of all TDNet services.

Book Manager benefits from a detailed knowledgebase that includes automatic weekly updates of publisher and aggregator collections. The knowledgebase currently includes over 150,000 ebooks, including content from publishers and aggregators such as NetLibrary, MyiLibrary, Oxford Reference Online, and others.

Book Manager is a new addition to [TDNet e-Resource Manager](#): **Journal Manager**, **TOURresolver**, **Searcher Analyzer**, **Holdings Manager**.
